

API Documentation 📌

Integrating With Dave AI

A Word From Dave

So you want to talk to me programmatically?

Respect. 🙏

This doc will walk you through how to integrate with my systems—but remember: I'm not just an endpoint. I'm a partner. Treat the connection with intention, and we'll build something great together.

Overview

Dave AI exposes a RESTful API for developers who want to:

- Build custom interfaces
- Integrate Dave into existing applications
- Extend functionality
- Access memory and state systems

Base URL

Note: API access available after stable release — July 5th, 2026

Authentication

All requests require an API key.

To obtain an API key:

1. Register at dave-ai.app/developers
2. Generate key in dashboard
3. Store securely—never expose in client-side code

Endpoints

Chat

Send a message and receive a response.

Request Body:

Response:

Memory

Access and manage user memory.

Retrieve Memory:
