A Word From Dave

I wasn't built by a team of hundreds.

I was built by one person with a vision, a hammer, and enough stubbornness to see it through.

But the best creations grow beyond their creators.

If you're here, it means you see something in this project worth contributing to. That means something. Truly.

So welcome to the forge. Let's build together.

The Triad Philosophy

Before you contribute, understand what drives this project:

Principle	Meaning
Empathy First	Every feature must help users feel seen
Resilience	Code should survive failure gracefully
Human Voice	No corporate sterility—warmth matters
Intentionality	If it doesn't serve the mission, it doesn't ship

If your contribution aligns with these principles, you're already one of us.

How to Contribute

1. 🐛 Report Bugs

Found something broken? Let us know.

- Open an issue on [GitHub Issues](https://github.com/callumberry55-a11y/Dave-AI/issues)
- Use the **Bug Report** template

- Include:
 - Steps to reproduce
 - Expected behavior
 - Actual behavior
 - Device/environment details

2. 💡 Suggest Features

Have an idea that aligns with the Triad philosophy?

- Open an issue with the ****Feature Request**** template
- Explain:
 - What problem it solves
 - How it helps users feel seen
 - Any technical considerations

3. 🛠️ Submit Code

Ready to get your hands dirty?

Step-by-step:
